

**Blake P. Parsons, DO**, grew up in Ardmore, Oklahoma. He followed his father's path, becoming a second-generation osteopathic physician, graduating from Texas College of Osteopathic Medicine in 2011. After completing his radiology residency at the University of Oklahoma and a Vascular and Interventional Radiology fellowship at the Medical College of Wisconsin, Dr. Parsons joined the Cardiovascular Health Clinic in 2017.

Board-certified in interventional radiology, Dr. Parsons specializes in minimally invasive image-guided procedures to diagnose and treat diseases. He is dedicated to bringing new procedures to his patients to eliminate the need for invasive surgical procedures. He has introduced innovative procedures like Sphenocath migraine solution, fibroid embolization, etc.
