

Jorge R. Mera, MD, FACP earned his medical degree from The Universidad Nacional de Cuyo on Mendoza, Argentina in 1985. After Graduation, he performed multiple residencies and fellowships in internal medicine, infectious diseases, and clinical microbiology. Over the past nine years, Dr. Mera has worked exclusively with rural and medically underserved populations in Arizona and Oklahoma. He is committed to strengthening evidence-based care, research, and programing to increase health equity. Board certified in infectious diseases, Dr. Mera serves as the lead clinical director and principal investigator for the Cherokee Nation HIV Elimination Project and the Cherokee Nation Hepatitis C Elimination

Project, program director for the Hepatitis C ECHO Project, and the Cherokee Nation Health Services' Antimicrobial Stewardship Program director, Nation Wide Infection Control Committee chair, and infectious diseases director.

Dr. Mera recently was awarded the 2019 Annual Heroes National Impact Award in Temecula, California by the National Indian Health Board.
