

Kenneth Daniel Ostmo, DO, earned his Doctor of Osteopathic Medicine degree from the Oklahoma State University College of Osteopathic Medicine in 2019. He then completed his residency in internal medicine at Oklahoma State University in 2022. His training included a heavy focus on HIV medicine in both the in-patient and out-patient settings and has driven him towards a patient-centered and outpatient-focused practice with an interest in biomedical ethics.

Dr. Ostmo enjoy all dogs, my family, listening to and creating music, Star Wars, Star Trek, and all things nerdy.
